

CVP M&I Water Shortage Policy Review

Stakeholder Workshop #4

October 28, 2010

Sacramento, California

Objectives of the WSP Review Process:

- Review CVP M&I Water Shortage Policy (WSP) status
- Enhance understanding of WSP
- Obtain input from CVP contractors and public (Stakeholders)
- Help guide decisions on WSP

Objectives of Today's Workshop:

- A. The water contractor participants/stakeholders will understand the proposed changes to the draft policy, particularly how their input was considered and accommodated (e.g. adjustments to contractor historical use on an annual basis) and why Reclamation cannot guarantee specific public health & safety water amounts (e.g. hydrological variations)
- B. The water contractor participants/stakeholders will understand “next steps” in the process including their opportunity to comment within 30 days and Reclamation’s future actions
- C. Reclamation will understand water contractor participants’ and stakeholders’ perspectives and information
